

LUXEFINDER

ORIENTATION

The Sidewinder configuration option places the hour and minutes cones in a line perpendicular to the arm. Starcruiser configuration places the cones in line with the arm.

MOTION

The kinetics of the winding rotor are on view at the front of the case, out of which rise twin truncated cones, housing the time and day/night indications.

MACHINE CULTURE

The HM3 by MB&F is an open-air theater of a timepiece. The action of the balance wheel, the winding rotor and the date wheel are all on display. \$77,000, 310.470.1388, mbandf.com
